ZERO Veterans Program zerocancer.org/veterans

There's a new chapter for Veterans in the fight against prostate cancer. Veterans are a high-risk population for prostate cancer, with an incidence rate that is twice that of the general population. ZERO and Veterans Prostate Cancer Awareness have united to bring the Veteran community the resources, tools, and education needed to fight and prevent the disease. This partnership will address the critical needs of Veterans who are facing prostate cancer.

ZERO Caregiver Connect zerocancer.org/caregiverconnect

The Caregiver Connector Program places those caring for men with prostate cancer with others in the same or similar position. Caregiver Mentors are specifically chosen to provide ongoing one-on-one support. ZERO's Caregiver Mentors have cared for their brothers, fathers, husbands, sons, partners, grandfathers, friends, and neighbors and are trained to support others in a position of caregiving. Caregiver Mentors can offer their experience and insights to help caregivers support and care for themselves and their loved ones.
